Mineman (MN) Rating

Minemen test, maintain, and repair mines and their components. They are responsible for assembling, testing, and delivering mines to the planting agent. They maintain minehandling and minelaying equipment. At sea, Minemen primarily man Avenger Class mine countermeasures ships as well the new Independence Class Littoral Combat Ships as a part of the MCM module. Their duties at sea include but are not limited to: operating mine hunting sonar, operating remote controlled submersibles in prosecuting mine-like contacts, rigging and deploying mine-sweeping gear as well as standing normal underway deck and Combat Information Center watches
